Jeff,

Here is the final sampling schedule for tomorrow. The last house confirmed a time.

See you tomorrow!

Why don't you plan on being with us for these 6 houses if at all possible. I think it would be a good idea.

Hi Jeff,

I work with Diane Russell doing community involvement and I wanted to reach out to you about the Wolverine site. As it relates to the water sampling, I called to set up times for water testing on Wed. Dec. 27. I've attached a document with the names, addresses, and requested time slots. Diane mentioned you were interested in having community involvement support for the sampling – if this is still the case, I'm happy to help. Just let me know what the plan is, and I'll be there.

Just a heads up, one of the residents Ex. 6 - Personal Privacy told me she didn't receive her results from when Wolverine tested her water. Several of the people I spoke with expressed concern over the results letter that came back non detect but still advised the resident to refrain from using the water.

I'll tentatively plan on seeing you Wednesday.

Happy Holidays!

Hi Jeff,

Please use the houses at the bottom of the attached spreadsheet highlighted in yellow. I don't know how many houses you need, but the houses are listed in order from maximum concentration to smallest concentration. These are the homes I found over 1000 ppt for PFOA or PFOS.

Have a good night,  
Jenny

Hi Jeff,

I will e-mail you sites for sampling later tonight. The conceptual model didn't have addresses. I started putting them in a spreadsheet. It may be very late because I have plans tonight and I will do it when I get home.

Have a good night,  
Jenny
